$$f(x) = \frac{x^2}{3} \dots$$

## 1. Introduction (12 bold)

The manuscript must written by using MS-word software. The text font is Times New Roman, size is 12 [1,2,3].

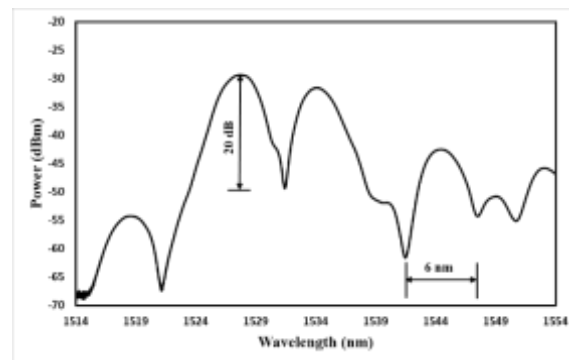

$$+ \frac{x^8}{9} \quad (1)$$

### 1.1 Subsection (12 bold)

Margins for the manuscript published in MJPS are 2.5cm for fourth sides. Display equations should be broken and aligned for two-column display [4], use the equation editor feature as Cambria Math, simple 12. You can choose the suitable space above and below the equation.

## 2. Methodology (Experimental Procedure)

Figure (1) shows the optical spectrum.

**Fig. (1):** Optical spectrum.

### 3. Results and Discussion

### 4. Conclusion

Tables must insert after the conclusion section. We prefer to put it within the column. If necessary you can maximize it.

**Table 1:** Data of cosine function.

**Acknowledgment.** We thank the Microbiology Laboratory for the use of their equipment.
